

RAILS ASSOCIATIONS

guided notes

RAILS ASSOCIATIONS

What six associations does ActiveRecord provide for your models?

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

Why should you implement associations in web apps?

Represent a one-to-many relationship of *one* User with *many* books. Fill in the blanks:

```
class User < ActiveRecord::Base
```

```
  _____  
end
```
