

RAILS ENVIRONMENTS

guided notes

RAILS ENVIRONMENTS

What are the three main Rails environments that you will be using?

1. Test environment
- 2.
- 3.

What does this following line from your `development.rb` file do? Why is it helpful to you?

```
config.cache_classes = false
```

This is the code from your Procfile:

```
web: bundle exec puma -t 5:5 -p ${PORT:-3000} -e ${RACK_ENV:-development}
```

Circle the part of this line that specifies what server Heroku should use?
